Mermazing headbands and lots of sparkle from the Blue Fins!

## TREASURE ISLAND: THE SECRET'S OUT!

After a busy week all sub camps have finally visited Treasure Island and uncovered the hidden treasure. Guides transformed into Pirates to try terrifying treats like dead man's fingers and fish eyes.

Guides could visit the mermaids to add a bit of sparkle to their outfits not forgetting the lashings of eco-glitter made from seaweed (an environmentally conscious essential for every great camp).

Then it was time to walk the plank! Guides engineered their own boats out of corks and then headed off to the galleon for target practice with the cannons!
